

**RECOGNIZED  
SPORT  
ORGANIZATION**

Announcement from Glenn Weiss, President USA Dance, Inc.

The DanceSport Council has been developing the DanceSport Council organizational chart since January 1, 2017. The DanceSport Council published the revised and ratified DanceSport Council Organizational chart in February 2017. The ratification saw the implementation of the Junior Athletes Committee.

Although it is our purpose to always do what is in the best interest of all of our athletes, it is felt the junior athletes warrant additional voice within the organization. The work of the Junior Athletes Committee is to represent all junior athletes in the USA. To this end the DanceSport Council is intent on representation across the geographical span of the USA for our junior athletes.

This structure will allow our junior athletes to have a voice. It will provide USA Dance Inc. with the opportunity to develop and attract talent for the junior athletes, providing services, education and growth opportunities for them. The Junior Athletes Committee will consist of a chair – DanceSport Delegate, and five volunteer parents, each with a vote in the Junior Athletes Committee.

As President, it is my job to make our athletes successful, it is also a campaign promise. My commitment, and the job of myself and our new Vice-President for DanceSport, Giacomo Steccaglia, is to attract the best talent for our junior competitors, to provide opportunity for future growth and development, with the hope of one day sending our athletes to the Olympics.

Our elected DS-Delegate, Carole Barber is responsible for the Junior Athletes Committee and is the Chair. Carole is forming the Junior Athletes Committee members. Currently she has volunteers and is interested in submissions from additional volunteer parents.

Please contact Carole should you be interested and willing to work with and in this effort.
